SUMMARY

Digital marketing specialist with **15+ years** *in web: UX, front-end production, CMS administration, and analytics. Nearly seven years at* **Flex** *running web strategy, CRO testing, and front-end work across enterprise properties, alongside dev, UX, and marketing teams. Comfortable in Sitecore, WordPress, and Google Analytics, and current on modern stacks — I recently built* **moodplay**, *an AI-powered web app on Next.js and the Claude API.*

EXPERIENCE

FLEX

DIGITAL MARKETING SPECIALIST

Austin, TX · 2019–2026

- Directed web strategy and content production across enterprise web properties; served as Product Owner for CRO testing and implementation
- Ran sprint planning, backlog grooming, and daily stand-ups with dev and UX teams
- Led UX strategy and testing, using analytics to inform design decisions
- Built and maintained front-end production in WordPress with a focus on UX and accessibility; administered Sitecore, Brightcove, YouTube, and SharePoint across internal and external platforms
- Tracked and reported performance in Google Analytics, Act-On, and SharePoint analytics; optimized user flow and lead qualification

FREELANCE

DIGITAL MARKETING CONSULTANT

Austin, TX · 2015–2019

- Delivered end-to-end digital marketing for small business clients
- Customized and maintained WordPress websites
- Managed contracts, invoicing, and client communications
- Negotiated service agreements and delivered on time and on budget

SECURENET PAYMENTS

DIGITAL MARKETING MANAGER

Austin, TX · 2013–2015

- Led SEM strategy and campaigns, meeting growth KPIs
- Built email automation workflows and wrote campaign copy
- Created reporting systems to measure and improve ROI

MARKETING CLIQUE

DIGITAL MARKETING MANAGER

Austin, TX · 2010–2013

- Managed SEO strategy and client account performance
- Consistently exceeded sales quotas

PROJECTS

MOODPLAY

CREATOR & DEVELOPER

2025 · moodplay-phi.vercel.app ↗

AI-powered web app that curates personalized Spotify playlists with a 3-act emotional arc. Built with Claude Code on Next.js, TypeScript, Tailwind CSS, and the Claude API, with Spotify OAuth and SSE streaming.

HEARTH

CREATOR & DEVELOPER

2026

Private household finance app with an MCP server exposing ten read-only tools to AI assistants, with a per-viewer privacy model scoping every query to that viewer's permissions. Python, FastAPI, and SQLite, with tests over the tool surface and privacy rules.
