CODY COPPIN

AI AGENT & PRODUCT BUILDER

Austin, TX codycoppin@gmail.com codycoppin.com linkedin.com/in/codycoppin ↗

SUMMARY

I build AI agents and the products around them. 15 years in UX and digital product, the last seven on enterprise web at **Flex**, *plus three AI products I designed and shipped myself:* **Hearth**, *a household finance advisor with its own Claude connector;* **Moodplay**, *a live Claude-powered playlist app; and* **NextLocal AI**, *an automated audit-and-outreach pipeline for local businesses. My strength is the part between the model and the people using it — scoping the job, wiring the systems together, and catching what breaks in real use that tests don't.*

EXPERIENCE

NEXTLOCAL AI

FOUNDER

Austin, TX · 2026

- Built the AI Visibility Report: a Make pipeline that pulls a local business's Google Places profile, reviews, and citations, has the Anthropic API grade it across five categories (Business Profile, Reviews, Citations, Website, Discoverability), and emails the finished report
- Designed a multi-agent lead pipeline — Apify scraping → automated audit → Hunter contact lookup → Instantly outreach — at about $4.39 per qualified lead
- Ran outreach to local dental practices; built the brand, site, and content myself

FLEX

DIGITAL MARKETING SPECIALIST

Austin, TX · 2019–2026

- Owned the redesign of the corporate SharePoint home page for 150,000+ employees: restructured navigation, analyzed content to decide what went where, and coordinated the changes across teams
- Handled the content side of a ~1,500-page Sitecore-to-WordPress migration and redesign: content inventory and mapping, pruning, rewriting, page builds, QA, and developer coordination
- Managed the relationships with the dev agency that administered Sitecore and with a third-party CRO testing vendor; ran the stand-ups
- Worked hands-on in Sitecore and WordPress, plus Brightcove, YouTube, and SharePoint

FREELANCE

DIGITAL MARKETING CONSULTANT

Austin, TX · 2015–2019

- Delivered end-to-end digital marketing for small business clients
- Customized and maintained WordPress websites
- Managed contracts, invoicing, and client communications
- Negotiated service agreements and delivered on time and on budget

SECURENET PAYMENTS

DIGITAL MARKETING MANAGER

Austin, TX · 2013–2015

- Led SEM strategy and campaigns, meeting growth KPIs
- Built email automation workflows and wrote campaign copy
- Created reporting systems to measure and improve ROI

MARKETING CLIQUE

DIGITAL MARKETING MANAGER

Austin, TX · 2010–2013

- Owned client accounts end to end, from strategy through hands-on execution
- Ran SEO, SEM, and Google Ads campaigns and built client site front-ends

PROJECTS

HEARTH

CREATOR & DEVELOPER

2026

Household finance advisor that recommends what to do next with our money, not just where it went. Pulls live bank data through SimpleFIN, runs on Fly.io, and exposes ten read-only tools to Claude through its own connector. A per-person privacy model scopes every query: shared household accounts are visible to both of us, personal spending stays private. 800+ automated tests — and the bugs that mattered (doubled interest, a drifting mortgage balance, a broken autopay counter) surfaced from my own review of the screens, then went back into the build. Python, FastAPI, SQLite.

MOODPLAY

CREATOR & DEVELOPER

2025 · moodplay-phi.vercel.app ↗

Describe a mood shift in plain language and Claude builds a Spotify playlist with a three-act emotional arc. Live. Built with Claude Code on Next.js, TypeScript, Tailwind CSS, and the Claude API, with Spotify OAuth and SSE streaming.

VELLAMERE

CREATOR

2026

Agent-run generative music pipeline. Non-repeating ambient pieces are generated in Logic (Scripter and MIDI FX); an agent bounces the sessions, files the results, and syncs review copies to Google Drive and a self-updating rating sheet. I review and rate every piece before anything is released — the agent handles the repetitive work, the release decisions stay with me.

SKILLS

AI & AGENTS

CLAUDE API · CLAUDE CODE · MCP CONNECTORS · MULTI-AGENT PIPELINES · HUMAN-IN-THE-LOOP REVIEW · PROMPT ENGINEERING · MAKE · AI OPTIMIZATION (AIO)

PRODUCT & UX

UX STRATEGY · INFORMATION ARCHITECTURE · CONTENT STRATEGY · CRO · VENDOR MANAGEMENT · SPRINT PLANNING · FIGMA

BUILD STACK

PYTHON · FASTAPI · SQLITE · NEXT.JS · TYPESCRIPT · REACT · TAILWIND · REST APIS · FLY.IO · VERCEL · GITHUB

CMS & MARKETING

SITECORE · WORDPRESS · SHAREPOINT · BRIGHTCOVE · GOOGLE ANALYTICS · SEO/SEM · GOOGLE ADS · EMAIL AUTOMATION · COPYWRITING

EDUCATION

ST. EDWARD'S UNIVERSITY

Bachelor of Arts, Theatre · 2002–2006 · Austin, TX

SCRUM ALLIANCE

Certified ScrumMaster · Earned 2021
